

# Mounts, Tripods and Pillars

## If I have a pier which is compatible with the old GP style mounts will it also fit the SX2 mount?

Yes but you will need the 75168 GP45 to 60AD ring as described on this page:

[Mount Base & Tripod Connection Specifications](#)

The adaptor will work with any of the SX series mounts including SXC, SXW, SXD, SX2, SXD2 and SXP.

Unique solution ID: #1000
